

PORTABLE POWER ANYWHERE

PS700 PORTABLE POWER STATION PART NUMBER - HU6504

The HULK Professional Series PS700 portable power station packs a 700W AC inverter and 716Wh LiFePO4 battery in a compact and lightweight design that's perfect to use in a caravan or when off-roading, fishing and camping.

With a built-in 700W Pure Sine inverter, PS700 can run most of your essential outdoor appliances and is capable of charging multiple devices and appliances at once, across different voltages, such as mobile phones, laptops, cameras, tablets, mini fridges/freezers, radios and lights.

Weighing only 9.7kg and with compact dimensions easy to carry, the PS700 is undoubtedly able to go with you anywhere you need power.

The PS700 comes with 10 Outlets, supports solar charging and can charge any essential devices during blackouts.

The long-lasting LiFe-PO4 battery provides over 2,500 charging cycles up to 80 percent, effectively eliminating the need for frequent battery replacements.

An especially handy feature is the in-built LED lamp, which provides additional lighting when needed, saving the hassle of having to carry around an additional lighting source.
