CLINGTAPE™ TAPE

Clingtape™ Cloth Tape is the most reliable multipurpose tape available. Known as 100 Mile an Hour Tape it will maintain its adhesion when subjected to winds travelling at up to 100 miles per hour (160km/h). A multi-purpose, waterproof, adhesive repair tape - suitable for minor mending and fastening applications in your home, yard, car or office. This tough and resilient tape is waterproof adheres to most surfaces, making it the ideal emergency repair tape for the car in speed sensitive situations.

Clingtape™ Duct Tape provides excellent electrical insulation and adhesion with high resistance to temperature extremes. Moisture resistance of film makes it suitable for pipe wrapping and protection.

THREADLOCKERS

Invented by Loctite as a revolutionary method to positively lock and seal threaded fasteners, LOCTITE® threadlocker adhesives are used in a wide range of applications – from delicate fuel injection components to heavy-duty transmission and engine assemblies. Specified by automotive OEMs and approved for use on factory assembly lines, threadlockers work by filling the spaces between threads. The result is a secure, one-piece assembly that will not loosen under stress.

Low Strength Threadlockers

- Removable with hand tools
- Adjustment screws
- Calibration screws
- Meters and gauges
- Up to ¼" (6 mm) diameters

Medium Strength Threadlockers

- Removable with hand tools
- Machine tools and presse

 Pumps and compressors
- Mounting bolts
- Gear boxes
- Up to ¾" (19 mm) diameters

Threadlockers

High Strength

- Removable with heat and hand tools
- Heavy equipment
- Suspension bolts
- Motor and pump mountsBearing cap bolts and studs
- Up to 1" (25 mm) and larger

Wicking Threadlockers

- Removable with heat and hand tools
- Preassembled fasteners
- Instrumentation screw
- Electrical connectorsCarburetors
- Up to ½" (12 mm) diameters

THREAD SEALANTS

LOCTITE® thread sealants seal and secure metal pipes and fittings, filling the space between threaded metal parts. Thread sealants harden to prevent leakage caused by vibration loosening, tape shredding, solvent evaporation, damaged threads and temperature cycling.

Designed for low and high pressure applications, thread sealants seal instantly for on-line low pressure testing. When fully cured, they seal to the burst strength of most piping systems.

GASKETING

Any gasket shape, any time. LOCTITE® gasketing products offer precise, reliable sealing. These gasketing materials include products with excellent fluid resistance and formulations for high operating temperatures, high torque retention and sensor-safe characteristics. A leader in form-in-place gasket makers, gasket dressings and general-purpose sealants, Henkel offers a choice of LOCTITE anaerobic, RTV silicone or solvent-based products to meet a broad range of complex automotive gasketing and sealing needs.

RETAINING COMPOUND

Use LOCTITE® Retaining Compounds to bond non-threaded, cylindrical metal assemblies. Fill the inner voids in close-fitting press fits, lock keyways and secure splines. Prevent wear and secure new parts, or restore fit to worn parts. Seal joints to stop leakage and prevent fretting and corrosion. Mount bearings and bushings, and make press fits and interference fits even stronger. Formulated in a selection of viscosity, gap-filling ability, flexibility and strength characteristics, LOCTITE® Retaining Compounds can be used on all of your tough retaining applications.
