

# BRAKE CONTROLLER WIRING PATCH HARNESSES

## THE POWER OF

**REDARC**<sup>®</sup>

REDARC Tow-Pro Wiring Kits simplify the installation of the market leading Tow-Pro Elite electric trailer brake controller into vehicles.

REDARC release a range of adaptor harnesses that suit vehicles that have pre-wiring connectors for Electric Brake Controllers installed by the vehicle manufacturer.

REDARC have developed the range of patch harnesses to connect seamlessly with the manufacturer installed pre-wiring connector. Providing simply and quality assured plug and play installations in vehicles or adaption where customers seek to upgrade from their old Electric Trailer Brake Controllers to the award-winning, segment leading REDARC Tow-Pro Elite.

All hardware and fitting instructions are included to deliver a quality and reliable outcome every time whilst protecting the integrity of the vehicle and avoiding the setting of fault codes or damage to the sensitive electronics.

### Features

- Suit pre-wired vehicles
- Simple to install
- Reduces fitment time
