

CoolDrive is pleased to announce the introduction of the new

Jaylec Portable Compressor 'Professional Series'

Jaylec has introduced a new high performance portable 12 Volt DC compressor ideal for 4WD, SUV, trailer and car tyres.

- Powerful maintenance free 1/3 horsepower (0.54kW) oil less motor
- Automatic thermal cut –out switch protects the motor from damage
- Air filter is easily removed and cleaned
- 45Amp circuit breaker with reset button
- Can be permanently mounted and hard wired.
- A low pressure 4x4 tyre gauge, heavy duty alligator clamps
- 3 piece inflation nozzle set and a thumb lock valve quick connector.
- Easily reaches all tyres with 8m inflation hose
- Metal sand tray base with anti vibration rubber feet

It has a soft grip handle and a strong carry case to store the compressor and all its accessories, all in high quality packaging.

Part Number: AC0150

Max Air Flow	160 litres per min.	Max Inflatiuon Pressure	150 psi
Max Voltage	13.8V	Duty Cycle at 24°c ambient	20min at 40psi
Max Amperage draw	45A	Max Operating Temp	60°c
Min Operating temp	-55°c	Net Weight	8.7kg
