

ANALOGUE GAUGE SERIES

Upgrade monitoring capabilities on vehicles with the new series of 12 Volt HULK Professional Series Analogue Gauges.

- Featuring 10 Colour LED Backlit Options, personalise vehicle interiors with vibrant and stylish illumination. Choose from a range of colours including Amber, Red, Yellow, Green, Aqua, Cyan, Blue, Purple, Pink and White.
- The 5 Level Day / Night Dimming Function allows users to easily adjust the brightness to match driving conditions. Enhance visibility during the day and ensure optimal visibility at night.
- Compact and sleek design, the 52mm / 2" gauge fits seamlessly into vehicle dashboards. It's easy to read and displays information accurately.
- For hassle-free installation, electric sender is included where applicable. This ensures compatibility and a seamless monitoring experience.

PRODUCT RANGE:

HU8400 - Fuel Level Gauge

12 Volt, 10 Colour Illumination, 52mm / 2"

To suit HU8418 - Fuel Level Sender Unit. Monitor vehicle fuel levels and make informed decisions regarding refueling.

HU8402 - Water Level Gauge

12 Volt, 10 Colour Illumination, 52mm / 2"

To suit the following Electronic Water Level Sender Units. HU8410 (100mm), HU8411 (150mm), HU8412 (175mm), HU8413 (200mm), HU8414 (225mm), HU8415 (250mm), HU8416 (275mm), HU8417 (300mm). Monitor engine coolant temperature to prevent overheating and ensure proper engine function.

HU8403 - Oil Temperature Gauge

12 Volt, 10 Colour Illumination, 52mm / 2"

Keep an eye on vehicle engine oil temperatures and detect potential engine issues. (Sender Included).

HU8404 - Water Temperature Gauge

12 Volt, 10 Colour Illumination, 52mm / 2"

To suit HU8419 - Water Temperature Sender Unit. Ideal for checking the engine cooling system and detecting any potential issues.

HU8405 - Exhaust Temperature Gauge

12 Volt, 10 Colour Illumination, 52mm / 2"

To suit HU8422 - Exhaust Temperature Probe. Monitor your vehicle's exhaust gas temperature and detect potential engine issues. Designed for high temperatures with a thermocoupled sensor.

HU8406 - Oil Pressure Gauge

12 Volt, 10 Colour Illumination, 52mm / 2"

To suit HU8420 - Oil Pressure Sender Unit. Monitor your engine's oil pressure and make an interior design statement simultaneously.

HU8407 - Boost Gauge Diesel

2 Volt, 10 Colour Illumination, 52mm / 2"

To suit HU8421 - Boost Gauge Sender Unit. Monitor the turbocharger or supercharger's pressure for optimal engine performance.

HU8408 - Voltmeter Gauge

8-18 Volt, 10 Colour Illumination, 52mm / 2"

Provides real-time readings of your vehicle's electrical voltage, allowing you to monitor the health and performance of the battery and charging system.
