## UNILUG PREMIUM CONNECTORS FOR DUAL BATTERY INSTALLATIONS

Two Up battery terminal lugs are purpose designed for dual battery installations where it is not desirable to cut or modify the factory battery leads or terminals. The concept allows factory strap type battery terminals to be fitted to a special tapered adaptor at the same time providing an additional terminating post to connect auxiliary batteries and/or ancillary equipment.

Shown with both universal flanged hex nuts fitted.

Shown with one universal flanged hex nut and adaptor post fitted.

Shown with the Nylon battery lug cover fitted.

Positive kit includes lug assembly, adaptor post and protective cover  
Retail code no: UMAP-K-RP

Negative kit includes lug assembly, adaptor post and protective cover  
Retail code no: UMAN-K-RP
