MINEBARS

PART NUMBER: HU9770

PART NUMBER: HU9771

Hulk 4x4 is pleased to announce the introduction of the Hulk 4x4 Minebars, Part Numbers; HU9770 and HU9771. The Hulk 4x4 Minebars are built using only quality components from trusted and well known manufacturers.

Both of the Hulk 4x4 Minebars are suitable for 12 or 24 Volt applications and feature premium products such as; Brigade Tonal Reversing Alarm, 103 Series Low profile LED Beacon, 2 x ADR Approved LED Rear Combination lamps, whilst the HU9771 unit also comes with 2 x Nordic CANIS GO 410 high intensity LED Worklamps mounted at either end of the Minebar.

The Brigade Reversing Alarm is a 97db Tonal unit that provides the traditional "Beep, Beep" sound, with an environmentally sealed housing that is vibration, dust and water resistant, meeting IP68 Rating.

All of the components found on the Hulk 4x4 Minebars come pre-wired via a 4m long, 8 Wire Sheathed harness assembly that are all clearly labelled of their required connections.
