

CPS® UV Leak Detection Light

PICO™ | UV Leak Detection Light

Part #: TO4208

Professional UV light delivers big performance in a compact design. Its greater luminosity and 395nm wavelength make it easy to detect leaks.

UV Light Features:

- Precise, true UV wavelength and bandwidth to optimize the fluorescence of UV dyes.
- UV POWER RATING 150
- ON/OFF Switch
- Fixed beam focus
- Durable aluminum alloy construction
- Water-resistant
- Pocket clip to secure to clothing
- Requires 2 x AAA batteries (Batteries not included)
- 6-month manufacturer's limited warranty

Phazer™ | BLACK 395 Rechargeable Light

Part #: TO4039

A/C systems are getting smaller, and leaks are getting harder to find. With the UView® Phazer™ BLACK 395 UV Leak Detection Rechargeable Light, those difficult-to-find leaks are made easier to locate and in less time!

UV Light Features:

- High Output True UV LED light
- UV POWER RATING 4789
- Precise, true UV wavelength and bandwidth to optimize the fluorescence of UV dyes.
- Maintains constant power output throughout the charge.
- 4+ hours of optimal battery usage with a single charge.
- An adjustable zoom lens allows for focusing light intensity in a smaller/larger area for precision viewing.
- Durable aluminum alloy construction.
- A rechargeable Lithium-Ion Battery provides years of trouble-free battery life.
- Water-resistant
- USB-C cable included (Power adapter not included)
- Includes UV-enhancing glasses
- 1 Year manufacturer's limited warranty
