

HULK DUAL DIAPHRAGM HIGH PERFORMANCE BRAKE BOOSTERS

Suits Toyota LandCruiser 70 VDJ Series.

Part number **HBB001** (suits vehicles with ABS)

Part number **HBB002** (suits vehicles without ABS)

- Upgraded boosters - a direct fit to replace the OEM booster
- These models of LandCruiser can often have less than ideal braking performance, depending on owner usage
- Twin diaphragm boosters improve overall braking performance

FEATURES & BENEFITS:

- Increasing braking by up to 30%
- Designed and engineered in Australia
- Full ADR compliance
- Reduced pedal effort and improved stopping power
- Direct bolt on replacement
- Fitting instructions on iShop
- iShop includes engineering compliance letter and QLD LG1 design code approval number
- Full ADR35 compliant brake test available to Engineers or Transport Authorities for sign off
