High Performance Brake System

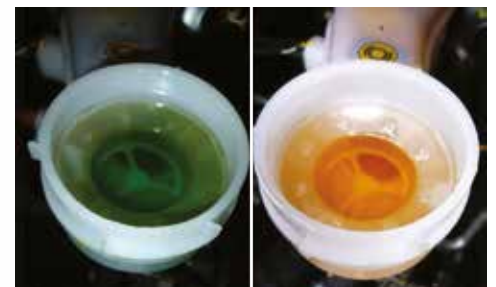

G-Four Brake Fluid

100% synthetic brake fluid for high performance driving.

With a dry boiling point of 335°C and wet boiling point of 212°C this fluid offers excellent all round performance for superior resistance to vapor locking, and is perfectly suited to racing as well as street use.

Contents: 1000ml

Indicates that it needs changing by turning from green to clear.

Part No: G-FOUR335
