

**PART NUMBER: WNS21**

**Sockets for Removing Damaged Wheel Nuts**

- New Patented Tool Design
- Hex impact sockets turn up to 85% rounded off wheel nuts
- Multi-purpose design also installs new fasteners
- Set of three: 17, 19, 21mm
- With nylon cover, to avoid scratching alloy wheels
- Impact wrench safe
- Comes in a convenient plastic storage case

**PART NUMBER: HSET22**

**Damaged Hex Fastener Remover Tool**

- New patented design bit driver takes out hex fasteners up to 100% rounded.
- A new multi-purpose design also installs new fasteners.
- Set of 1.5mm to 13 mm available on rail.

**PART NUMBER: LCE21**

**Last Chance Extractor Set**

- New patented 'last chance' extractor inserts for wrenches and sockets.
- The whole range only requires two wrenches (14mm and 19mm). Not necessary to have a separate wrench for each nut size.
- Turns either a standard socket or wrench into one, which can turn a severely damaged fastener.
- Grips all the way around a fastener and allows even 85% rounded off fasteners to be turned.
- Securely grips many different types of fasteners: six point, twelve point, hex, spline, etc.
