CLUTCH KIT

The Toyota HiLux has been the popular option as a dependable workhorse for over 60 years and the new variants are no exception.

Whether you're carrying heavy loads, towing or modifying the engine, you should be thinking of upgrading your clutch system so that you're able to deliver that torque to the ground.

CoolDrive is pleased to announce the introduction of a 4Terrain Ultimate Clutch Kit to suit these applications.

FEATURING:

- Chrome Vanadium Diaphragm for maximum durability.
- ER² grooved pressure plate patented technology for greater torque capacity and increased heat dispersion.
- SG Iron pressure plate with a yield strength 300% higher than standard castings.
- Dual friction clutch plate with low wear, high coefficient of friction aramid buttons.

4TU3056N

THE KIT INCLUDES:

- 4T Clutch Disc
- Spigot Bearing
- 4TU Cover Assembly
- Release Bearing
- Aligning Tool
