

WIRELESS CHARGERS

Aerpro have just released a range of Wireless Chargers to suit any application, all deliver a fast and safe way to charge your mobile device. Handy to use at home, in the office or car, as well as on the go. Compatible with all Qi enabled devices, now you can charge your mobile device no matter where you are.

Part Number: AP20AQI

Smart Wireless Charger Cradle with Vent & Suction Mounts

Take your in-vehicle wireless charging experience to the next level with this universal adhesive, suction and vent mount wireless charging smartphone holder, the Aerpro AP20AQI. Thanks to its 10W Qi-Certified wireless charging capabilities, it automatically identifies the charging protocols of the smartphone and delivers the fastest charge rate possible. The holder features a sliding charging coil too, which allows it to align with the smartphone to deliver up to 20% more efficient charge rates compared to other holders.

Features:

- Supplied with two mounting options, suction and vent
- Fast-charging 10 Watt
- Compatible with all Qi-enabled devices like Samsung S7 to S10 iPhone 8 to iPhone X among others
- Silicone pad for anti-scratching
- Automatic arms activated by infrared sensor that lock and one touch sensitive button release
- Arms extend 57mm to 87mm
- Adjustable and extendable stand for 4.6 to 7-inch hand-held devices
- Type C USB input with 1M cable included
- Ideal for use in the car

Part Number: APDCCUP

Universal Cup Holder Wireless Charger

Wireless charging is delivered safely with the Aerpro APDCCUP as the holder has advanced safety features including over voltage and temperature detection that prevent any unsafe charging occurrence to avoid damage to the smartphone.

Features:

- Qi Certified 15W Qi Fast Charging automatically identifies charging protocols to deliver fast wireless charging for the device
- 3 Coil wireless charging provides a wider charging area and vertical inductive distance
- Universal fit rubber base allows the holder to securely mount in the vehicle cup holder (60-90mm)
- Includes QC3.0 USB port, allowing other devices to connect and charge via the holder
- Over voltage and temperature protection protocols detect and prevent any unsafe charging occurrence to avoid damage to the smartphone
- Convenient smartphone mounting, simply sit the compatible smartphone on the holder and it will begin charging
- 12V Accessory plug with 43cm lead will connect to any vehicle accessory socket to provide power to the holder
- Charge indicator light shows the charging status of the connected device

Part Number: AP15QIW

Super Slim 15W Qi Wireless Charging Pad

AP15QIW brings together charging convenience, accessibility and efficiency into one single slim wireless charging solution. The AP15QIW is one of the slimmest and most stylish looking wireless chargers in the market.

Features:

- Suitable for all wireless Qi-enabled devices like Samsung S7 to S10 or Apple iPhone8 to iPhone X among others
- Automatically identifies charging protocols to deliver the fastest wireless charge possible
- Charge indicator light to show when the phone is charging and when charging is complete
- Multi-protect over voltage and temperature protection
- Comes with a 1-metre Micro USB cable that can be connected to a USB charge port
- Anti-skid rubber finish perfect for home, office or car use

Part Number: AP10QI

Wireless Charging Pad Silicone Anti Slide Design

Aerpro AP10QI Anti-slide Wireless Charging Pad for home or car use works well with Qi-enabled hand-held devices. Comes with over voltage/temperature protection, AP10QI automatically pinpoints charging protocols enabling it to deliver the fastest wireless charge possible. It also sports a non-slip charging base that holds the phone steady at all times.

Features:

- Fast-charging 10 Watt
- Compatible with all Qi-enabled devices like Samsung S7 to S10 iPhone 8 to iPhone X among others
- Maximum phone size 90mm wide x 175mm high
- Comes with a non-slip, anti-skid base and non-scratch rubber surface
- Type-C USB input
- Ideal for use in the car, at home or even in the office

Part Number: AP5000WC

5W Qi Wireless Charger & 5000mAh Power Bank

AP5000WC simplifies and boosts your charging experience on all fronts—just put your wireless charge smartphone on top of the power bank suction mounts. It will also charge non wireless devices through its USB charge port and includes a Micro USB cable.

Features:

- 5000mAh battery capacity provides plenty of reserve power to keep you smartphone charged on the move
- Suitable for all wireless Qi-enabled devices like Samsung S7 to S10 or Apple iPhone8 to iPhone X among others.
- Automatically identifies charging protocols to deliver fastest, most efficient wireless charge possible
- Equipped with over voltage and temperature protection to protect your smartphone
- Light up power indicator to show how much power is left
- Suction cup base secures the phone making it ideal for home use, in-car use or on the go
