

WHEEL HUB ASSEMBLIES & BEARING KITS

Do you have a customer advising of an unusual vibration, growling or humming noise from driving their vehicle?

Have you noticed their tyres are wearing out unevenly?

*If these are the symptoms, then the wheel bearing hub assembly should be examined and a replacement may be required. The main function of a Wheel Bearing Hub Assembly is to bear the weight of a vehicle and provide accurate rotation for power transmission onto the road. **Over 200 part numbers in the range, its application spans a breadth of passenger and light commercial vehicles.***

WHEEL HUB ASSEMBLIES

- Manufactured with high-quality standards, undergoing a vacuum vulcanisation process to enhance structural integrity and ensure the correct fitment of the seal and rubber components.
- In order to increase longevity and fight unwanted abrasion, the ball bearings are spaced precisely to the limit of clearance tolerance for smooth rotations - time after time.
- Engineered with Silent Ride Technology (SRT) to ensure a comfortable and quiet ride, strict engineering tolerances, in conjunction with the highest quality bearing components, are integral to the superior design of Aunger Wheel Hub Assemblies.

WHEEL BEARING KITS

- High-quality rubber are utilised to optimise the seal performance and durability against high-temperature conditions and weathering
- To ensure a smoothly rotating surface, free from defects, burrs and cracks, all bearing housings are manufactured with polyamides for added impact resistance and overall wear reduction.

12 MONTHS 25,000KM PASSENGER VEHICLE WARRANTY
6 MONTHS 15,000KM COMMERCIAL VEHICLE WARRANTY

WHEEL HUB ASSEMBLIES & BEARING KITS

PART#	PRODUCT	DESCRIPTION
AWH001	Front Wheel Hub	Suits Ford Falcon AU-BF
AWH002	Front Wheel Hub	Suits Toyota HiAce KDH/TRH Series 05-10 without ABS
AWH003	Front Wheel Bearing Kit	Suits Nissan Patrol GR IV Y60
AWH004	Front Wheel Hub - Left	Suits Holden Commodore VT II-VZ
AWH005	Front Wheel Hub	Suits Subaru Forester 08/97-07/02 with ABS
AWH006	Front Wheel Bearing Kit	Suits Toyota Tarago without ABS
AWH007	Front Wheel Hub - Right	Suits Holden Commodore VT II-VZ
AWH008	Rear Wheel Bearing Kit	Suit Suzuki Swift, Baleno, SX-4, Liana without ABS
AWH009	Front Wheel Hub	Suits Toyota FJ Cruiser GSJ15 with ABS
AWH010	Rear Wheel Bearing Kit	Suits Subaru Forester, Impreza, Liberty
AWH011	Rear Wheel Hub	Suits Subaru XV 2012.03-0N with ABS
AWH012	Rear Wheel Hub	Suits Toyota HiAce, HiLux VI, Prado with ABS
AWH013	Front Wheel Bearing Kit	Suits Hyundai Elantra; Kia Rio without ABS
AWH014	Front Wheel Bearing Kit	Suits Toyota LandCruiser, HiLux without ABS
AWH015	Rear Wheel Hub	Suits Subaru Outback BL/BP 2.5L/3L 09/03-08/09

PART#	PRODUCT	DESCRIPTION
AWH016	Front Wheel Hub	Suits Holden Commodore VE 08/06-04/13
AWH017	Rear Wheel Hub	Suits Honda Jazz GD/GE 10/02- with ABS
AWH018	Rear Wheel Hub	Suits Honda Civic VIII FD/FA 1.3 10-12 with ABS
AWH019	Front Wheel Bearing Kit	Suits Ford Ranger ER/EQ 2.5 1999.10-2006.06 without ABS
AWH020	Front Wheel Bearing Kit	Suits Hyundai I20 JC 1.4 66kw 2010.11- without ABS
AWH021	Front Wheel Hub	Suits Nissan Navara D40 RX/ST-X 2.5L TDi 12/05- with ABS
AWH022	Rear Wheel Bearing Kit	Suits Toyota LandCruiser, HiLux, HiAce without ABS
AWH023	Front Wheel Bearing Kit	Suits Subaru Liberty, Forester, Impreza without ABS
AWH024	Front Wheel Hub	Suits Toyota Corolla ZRE152 1.8L 05 07- with ABS
AWH025	Front Wheel Hub	Suits Ford Falcon FG 06/08-0N with ABS
AWH026	Front Wheel Bearing Kit	Suits Hyundai Santa-Fe, Sonata, i40, Tuscon; Kia Rondo without ABS
AWH027	Front Wheel Bearing Kit	Suits Toyota HiLux KUN/GGN/TGN without ABS
AWH028	Front Wheel Bearing Kit	Suits Mazda6 GG 02-08 without ABS
AWH029	Rear Wheel Bearing Kit	Suits Ford Focus 98-04 FXDA/FXDB/FXDC/FXDD without ABS
AWH030	Rear Wheel Hub	Suits Jeep Compass MR FWD 03/07-03/10 with ABS
