Permatex

SEAL + LOCK

**THE NEXT GENERATION
OF THREAD COMPOUND**

**Thread sealant &
blue threadlocker in ONE!**

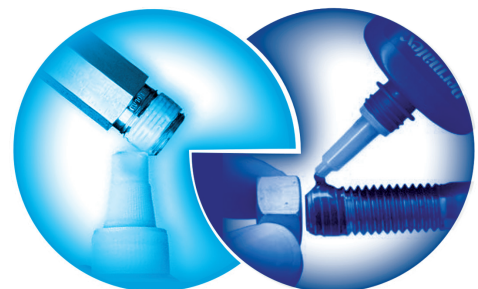

Permatex has developed a one-of-a-kind product that combines the power of a thread sealant and a thread locker into one. Current products on the market can only seal or lock, but Permatex has created a revolutionary product that does both. With this hybrid thread compound, sealed connections will not loosen and locked fittings will not leak.

Features

- Creates air and water tight seal
- Seals to 1000psi
- Locks to 120 lbs. sq. in.
- Temperature resistant between -60°F to 300°F
- Solvent resistant
- Immediate low pressure sealing
- Resists all common shop fluids
- Cures without cracking
- Removable with hand tools

Part No: 57535

SEAL + LOCK
THE NEXT GENERATION OF THREAD COMPOUND

Thread sealant & blue threadlocker in ONE!

Applications:

Automotive

- Threaded freeze plugs
- Oil pressure sensor
- Fuel line supply nuts and bolts
- Threaded fuel injectors
- Coolant temperature sensor
- Power steering cooler line nuts
- Brake master cylinder line nuts
- A/C systems
- Plumbing systems
- Hydraulic lines

Hardware

- Metal plumbing connections
- Gardening hose and sprinkler connections
- Metal pipe plugs
