

REDEFINING BRAKING PERFORMANCE

F2S
Street Edition

Introducing Evolve F2S Street Edition Performance Brake Rotors from Bremtec Brakes

Bremtec
Brakes

Features

- **High Carbon - Longer life, Better bite**
- **HPC - Hyper Pillar Cooling: Improved airflow through our newly designed vents**
 - **Black Hat and Edging**
- **Thermal Heat Paint - to help identify how hot a customer gets their rotors.**
- **Hyper Slotted - An aggressive slot design for improved bite**

Born from racing technology and engineered with Bremtec's unique HPC (Hyper Pillar Cooling) venting for improved airflow to increase thermal resistance to cracking and manufactured in High-Carbon for longer life and durability.

Evolve F2S Brake Disc Rotors also boast Bremtec's Hyper Groove Slotting for improved braking consistency and have a brake temperature paint applied to the edge of the rotor to monitor even easier the effects of your driving style.

You can be confident that Evolve F2S is the new evolution of Performance Brake Disc Rotors.
