

BEDROCK FLOOR LINERS

NOW AVAILABLE

100% FIT GUARANTEED

100% Fitment Guarantee and Lifetime Warranty. State of the art engineering and production methods are used to ensure your liners are second to none.

The Bedrock Liners are designed, engineered, and manufactured from scratch to ensure they are a 100% perfect fit for your vehicle. Constructed with heavy duty TPE material, they're tough, durable, and pedal safe, complete with edge-to-edge protection all round.

LIFETIME WARRANTY

Each set of liners have hundreds of hours of research behind them, which is why your Bedrock's won't just fit great, but they'll also last a lifetime.

The liners have been engineered to be the toughest liners on the market. Combining the light weight and sturdy properties of plastic with the non-slip nature of rubber, the strong TPE construction will withstand anything you throw at it, and last for generations to come.

COMPLETE COVER

The Bedrock Liner has no gaps and features door-to-door protection to keep your vehicle in its best condition inside and out, where no spills will be getting through onto your floor. The 'rock' and 'water' designed patterns ensure liquid drains away from your feet to provide maximum grip under foot.

These liners will come out on top against even the toughest of Aussie conditions. From sand, mud, dirt, or snow, with its raised edges and bucket style design, the complete coverage system ensures nothing is getting past these liners.
