FULLY-FUNCTIONING INTERACTIVE TOW-PRO ELITE ELECTRIC TRAILER BRAKE CONTROLLER

THE POWER OF
REDARC

Part No: DISPLAY-TP01

The REDARC Tow-Pro demonstration display kit (DISPLAY-TP01) showcases a fully-functioning interactive Tow-Pro Elite Electric Trailer Brake Controller, complete with remote head, mini brake pedal, main unit and LED brake lights.

The display allows consumers to interact with the product to gain an appreciation of just how compact and easy to use the Tow-Pro Elite Electric Trailer Brake Controller is. The kit is approximately 35cm x 25.5cm and comes equipped with Tow-Pro Elite and a 240V power pack.

Features:

- Eye-catching interactive dynamic sales tool
- Showcases the functionality of the Tow-Pro Elite Electric Trailer Brake Controller
- Interactive electric trailer brake controller to explain and demonstrate both brake modes and override
- Supplied with 240V power pack and ready to display
- Powered by a laptop or the power pack provided
