THINKWARE FRONT & REAR DASH CAM - 16GB

Part No: F770D16

Harness the power of the THINKWARE F770D16 that gives your comprehensive day-and-night front and rear surveillance a boost.

Utilise F77016 (front) that records clear, crisp and wide angle full HD videos at 30 frames per second and link it up with F77RA (rear) camera to catch on tape any accident or incident that might take place behind your vehicle. Supplement these two with THINKWARE Hard Wire Cable (HWC) to maximise your car's surveillance capabilities, particularly in capturing enhanced videos in low light places during park mode with Super Night Vision 1.0.

Powered by Sony Exmor imaging sensors, F770D16 comes with a built-in GPS system for embedded speed, time and location data; Advanced Driving Alert System (ADAS) like Lane Departure (LDWS) and Forward Collision (FCWS); Camera Alerts for speed and red-light cameras; and built-in Wi-Fi Connectivity to control and manage it on iOS or Android powered smartphone. F770D16 supports up to 64GB Micro SD.

FEATURES:

- Full HD 1080P front & rear with wide-angle cameras for clear, crisp HD recordings
- Built-in Wi-Fi to control and manage F770D16 via iOS or Android powered smartphone
- Advanced Driving Alert System (ADAS) including Lane Departure (LDWS) and Forward Collision (FCWS)
- G-Sensor Incident Detection (Dual Save) that saves and protects crash/impact recordings
- Safety camera alerts including speed camera, red light camera and mobile speed zones
- Time Lapse Park Mode that prolongs video surveillance recording time
- Super Night Vision 1.0 helps record enhanced low light footage when parked
- Built-in GPS embeds speed, time and location data into recorded footage
- Format Free 2.0 will extend the life and reliability of the SD card, the F770D16 includes a 16GB Micro SD and supports up to 64GB
- Korean made reliability with 2-Year Warranty
