NARVA®
THE VISION TO GO FURTHER

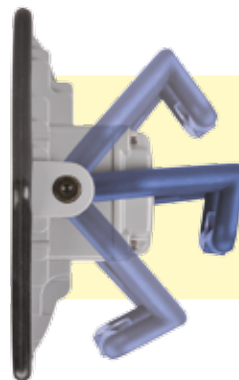

NEW COMPACT AND MINI HIGH POWERED RECHARGEABLE MINI L.E.D FLOOD LIGHT

- Powerful 10W COB L.E.D provides up to 1000 lumen of white flood light
- Selectable output allows 8.5 hours (250lm), 4 hours (500lm) or 2 hours (1000lm) use
- Impact resistant rubber frame, durable adjustable nylon handle and sealed to IP65
- Lithium-ion battery and USB charging (included)

Narva's high-powered, rechargeable L.E.D workshop flood light has now been joined by a more compact, mini version (71345) designed for use in the workshop, home garage or leisure environments. Not short on punch, the lithium-ion battery powered lamp features a powerful 10 watt COB L.E.D that shines an impressive 1000 lumen of brilliant white flood beam for up to 2 hours. A selectable light output allows you to extend battery life for up to 4 hours (500 lumen) or 8.5 hours (250 lumen). Charging is done via the included 1.5 metre USB adaptor cable and 240V wall plug, whilst an intelligent battery indicator offers a quick check up on battery life.

71345

Featuring a durable nylon handle with 180 degree range of motion, the lamp can be affixed to a metal surface using the included powerful magnet attachment, or mounted to an optional telescopic stand (71372) for handsfree lighting.

Included: 240V wall adaptor, 12V cigarette plug and 1.5 metre USB cable included
