

**TRANSGOLD**

# TRANSMISSION FILTERS

**For more application & detailed information, please search via OSCAR or iShop.**

## THE RANGE

With around 300 transmission kits, Transgold have an extensive range covering all major vehicle makes and models.

## MANUFACTURE

As a specialist in automotive products for over 20 years, Transgold supply the highest quality components to ensure its transmission kits do the job right.

Filters from its factory are TS16949 certified and undergo rigorous testing such as flow and burst pressure testing to ensure reliability and durability.

## QUALITY

All of Transgold's suppliers are audited for quality materials and reliability. All have qualified for ISO:9001 or TS:16949 certification.

## BENEFITS

The benefits of Transgold's Transmission kits are that they keep the transmission operating at optimum levels, removing contaminants and ensuring clean transmission fluid flows.

Transgold transmission kits consist of all the parts you'll need to reseal your transmission. With quality components in one easy kit, there's no mucking about checking specifics for reorder.

## WARRANTY

12 month, 20,000km warranty.
