

UHF/VHF Digital TV Antenna

Part No: AE3001

Introducing the newest addition to our range of mobile antennas, the AE3001. The AE3001 has been developed as a mobile UHF/VHF Digital TV Antenna with a rigid fibreglass design to suit the needs of both the heavy vehicle and caravanning industries.

With linear loaded sections to cover both the VHF & UHF digital TV channels, the antenna is factory tuned and requires no further adjustment. Intended for mobile applications, this antenna is packed with a standard mounting base, 5 meters of low loss coaxial cable and F type connection.

Key Specs

- Factory tuned to UHF and VHF Digital Frequencies
- Rigid Fibreglass Design
- Designed for Mobile Heavy Vehicle Applications
- Antenna Whip Removeable from Base
- Made in Australia

What comes in the bag

- Whip Assembly (AW3001)
- F Type Male Twist On Adaptor
- Base Assembly with 5m Coaxial Cable (ABL021)
