

THE POWER OF

REDARC[®]

BCDC MOUNTING BRACKETS

REDARC has released an additional 2 BCDC Mounting Bracket variants to aid in the engine bay installation of BCDC in-vehicle chargers.

A Mitsubishi Triton MR Diesel & Pajero bracket will be available, tailored for specific engine bay fitment to QE/QF model vehicles from 2019 onwards.

Additionally, a Nissan Patrol Y61 GU Series 4 - 9 bracket will be available, tailored specifically for Diesel variants manufactured between 01/2005 through to 04/2016.

Both brackets are designed to be used with all REDARC BCDC variants and ship complete with instructions and fasteners to complete the installation process.

In total, ten BCDC Mounting Bracket variants will now be available to support in-vehicle engine bay fitment.

BCDCMB-009

Mitsubishi Triton MR Diesel & Pajero QE/QF 2019-on
