## 90 Minute Gasket Maker

Are you tired of waiting to road test a vehicle once the job is done? Ever had to hold a customer's car overnight just to ensure your silicone application is fully cured? Well wait no longer – Introducing The Right Stuff® 90 Minute Gasket Maker from Permatex. This superior product not only outperforms conventional pre-cut gaskets, but also cures in just 90 minutes. This is the only silicone on the market available in a squeeze tube that allows record return to service time. The Right Stuff® 90 Minute Gasket Maker was formulated to provide a strong and fast high flex silicone seal that offers excellent durability.

### Application

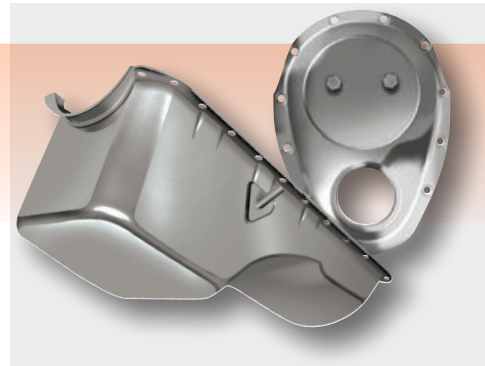

- Valve Covers
- Intake Manifolds
- Coolant Flanges
- Oil Pans
- Timing Covers
- Heavy-Duty Truck & Fleet

Part No: 25228

## Why would I use The Right Stuff® 90 Minute Gasket Maker?

The Right Stuff® 90 Minute Gasket Maker offers the same durable reliability as our original formula. No more mail order shipping cost or waiting for gaskets to arrive from the parts store. The product is blowout resistant and replaces the need for precut gaskets. An additional application nozzle is included in every package for multiple use convenience.

## What is the difference between Permatex Optimum series and The Right Stuff® 90 Minute Gasket Maker?

The Right Stuff® 90 Minute Gasket Maker contains proprietary thickening agents specific to its formula. This allows the quickest return to service time offered by any automotive silicone available in a squeeze tube. Optimum is engineered for newer lightweight composite engine components such as plastic valve covers and oil pans.
