

TIE ROD ENDS

FEATURES:

Reliability & Control: Utilising state-of-the-art manufacturing processes that emphasise the precision of inner and outer threads, Aunger Tie Rod Ends boast exceptional tensile strength under any conditions.

Advanced Lubrication: Featuring high-grade lubrication grease according to OEM specifications, all moving parts are correctly lubricated, and complemented by outstanding anti-rust and anti-corrosion properties.

Premium Rubber Boots: Made from high-grade chloroprene rubber, the boots tolerate extreme temperatures from -20°C to 120°C, preventing corrosion and ensuring the components are sealed off from dirt and moisture for unmatched durability.

Rigorous Durability Testing: Proven to endure, each Aunger Tie Rod End design undergoes over 1 million test cycles of anti-fatigue and durability assessments, confirming our commitment to products that not only last but meet or exceed OEM specifications.

WHEN TO REPLACE:

Key indicators that it may be time to replace a vehicles' tie rod ends include uneven tire wear, a loose steering wheel, poor vehicle alignment, and any rattling or knocking sounds when turning or manoeuvring. Timely replacement of tie rod ends is crucial for maintaining optimal steering control and ensuring the safety of the vehicle.

Part No	Description
ATR009	SUITS FRONT LEFT & RIGHT MAZDA CX-5 KF4WL KF
ATR010	SUITS TESLA MODEL Y REAR WHEEL DRIVE.J
ATR011	SUITS FRONT RIGHT HONDA JAZZ VTI,VTI-L,VT-5 GK5 GK,GF
ATR012	SUITS FRONT LEFT HONDA JAZZ VTI,VTI-L,VT-5 GK5 GK,GF
