

THE POWER OF
REDARC

BCDC ALPHA100 R

NEW PRODUCT RELEASE

The REDARC BCDC Alpha100 R is the latest addition to the BCDC Alpha R lineup. Following the launch of the Alpha50 R, it steps up with a massive 100-amp charging capability, integrating start battery charging, input current limiting, RedVision connectivity, and a built-in Smart Battery Monitor in one powerful system.

With battery State of Charge, time remaining, and charger performance displayed on your mobile, staying informed is easy.

The Alpha100 R automatically adapts charging for optimal efficiency and extended battery life—it's more than just a DC charger; it's a complete battery management solution.

Ideal for canopy and cabin installations, the Alpha100 R is perfect for serious off-grid and touring adventures.
