

PRODUCT DATA SHEET

JAYRAD RADIATOR FLUSH

RADIATOR CLEANING ADDITIVE

PRODUCT DESCRIPTION

Jayra Radiator Flush is a non-acidic radiator flush containing organic salts. It safely removes scum, oily residue, sediments, rust, deposits and other degradation products from the cooling system.

Jayrad Radiator Flush will not harm metals, plastics, rubber seals or gaskets in engine cooling systems of petrol, diesel, gas fuelled vehicles, trucks, buses, tractors, and heavy machinery.

BENEFITS

- Contains corrosion inhibitors
- Easy to use and requires no neutralisers
- Maximises cooling system efficiency
- Quickly and safely removes scum, oily residue, sediments, rust, deposits and other degradation products from the cooling system
- Safe for all cooling systems including aluminium radiators

PRODUCT SIZE

PART NUMBER	SIZE
JAYFLUSH001	325 mL
JAYFLUSH002	20L

HOW TO USE

- Ensure the engine is cool before starting.
- Completely drain the cooling system, then refill with water and **Jayrad Radiator Flush** at a ratio of 325ml per 10L of system capacity.
- Start the engine with the heater on and let it idle for 20 minutes.
- Allow the engine to cool, then drain and flush the system thoroughly with clean water.
- Refill with fresh water to check for leaks and tighten any loose connections.
- Finally, drain and refill the system with the recommended **Jayrad Coolant**.

CHARACTERISTICS

TEST	TYPICAL VALUE
Specific Gravity	1.1 (+/-0.05)
Boiling Point °C	>106
pH Value	12-13
Appearance	Blue liquid
