

WYPALL®
BRAND

WIPES VS RAGS:

Why your workshop should use WypAll® wipes as a better alternative to rags

THE TOP FEATURES AUTOMOTIVE WORKSHOPS NEED FROM A CLEANING SOLUTION:

High durability

Superior absorbency

Low lint /debris

HERE'S WHEN WYPALL® COMES IN

WypALL wipes are designed with your needs in mind. They are lower in wastage than rags and deliver consistent high efficiency and effective wiping performance.¹

Reusable Rags

WYPALL® Wipes

Choose

✗ Need pre-sorting and prep to remove lint, pins and chemicals

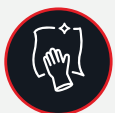

✓ Ready-to-use, requiring no pre-sorting

Dispense

✗ Labour-intensive, requiring inspection and redistribution

✓ Easy-to-use, dispensing one sheet at a time

Performance

✗ Unreliable as rags may leave lint, residual chemicals or sharp debris

✓ Reliable, efficient performance, for an effective clean of products, surfaces and workplaces

Discard

✗ Can create more waste owing to inconsistencies in size, condition and usability

✓ Less waste when opening a new pack, compared to most rags¹

See overleaf for more details

✓ Primary Task ✓ Secondary Task

Products are made with HYDROKNIT® Technology. A process known as hydroentangling that bonds cellulose fibres into polypropylene nonwoven webs through the use of high-pressure water jets that strike the webs in an agitating motion, causing the fibres to become entangled. The cellulose provides absorbency. The nonwoven provides strength.
