

# BCDC Mounting Brackets

THE POWER OF  
**REDARC**®

- REDUCES BCDC CHARGER FITMENT TIME
- FOR VEHICLE ENGINE BAY INSTALLATION
- AUSTRALIAN MADE AND DESIGNED
- CONSTRUCTED FROM 304 STAINLESS STEEL
- INSTALLATION INSTRUCTIONS AND FASTNERS INCLUDED

REDARC is releasing an additional two BCDC Mounting Bracket variants to aid in the engine bay installation of BCDC In-Vehicle Chargers.

A Toyota LandCruiser 100 bracket will be available, tailored for vehicle specific engine bay fitment to J100 and J105 Series vehicles. Additionally, a generic Universal Mounting Kit will be available allowing the BCDC to be mounted in a vehicle's engine bay when a model specific mounting bracket is not available.

Each of the brackets are designed to be used with all REDARC BCDC variants, and ship complete with instructions and fasteners to complete the installation process.

Part Number	Suits
BCDCMB-001	Toyota LandCruiser 200 (11/2008-on)
BCDCMB-002	Toyota LandCruiser 70 (03/2007-on)
