

# BATHURST 12 HOUR SPECIALIST TRAINING EVENT 2026

Bathurst, NSW

February 13 – 15, 2026

STRONGER WITH  
**CAPRICORN**

PREFERRED SUPPLIER

Get ready for an action-packed weekend at the iconic Bathurst 12 Hour Specialist Training Event, where racing meets unparalleled technical training.

CoolDrive Auto Parts presents a unique opportunity for technicians and workshop managers to advance their skills with the latest vehicle system technology, while soaking up the adrenaline of world-class GT racing.

Scan QR Code to discover more about the Bathurst 12 Hour Specialist Training Event by watching a video that captures the experience and includes testimonials from past attendees.

## TRAINING FOCUS AREAS:

### High-Performance Vehicle Technology

- A focused technical session exploring what makes high-performance vehicles truly different. We'll look at how advanced powertrain design, suspension systems, and electronic controls — developed through motorsport and performance engineering — are now finding their way into the modern workshop environment and everyday vehicles.

### ADAS Calibrations and System Operation

- This professional training session provides a clear and practical understanding of Advanced Driver Assistance Systems (ADAS). Designed for technicians, workshop owners, and educators, it focuses on how these systems operate, how to diagnose related faults, and how to carry out precise calibrations using modern workshop equipment.

### Diagnostic Techniques & Equipment for EV & Hybrid Vehicles

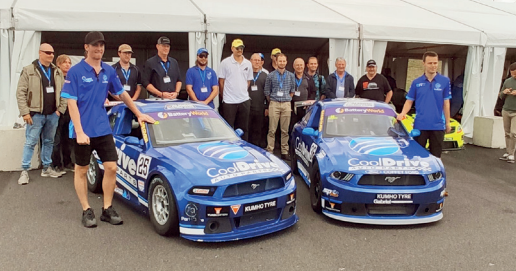

- This session will focus on the key diagnostic procedures, safety requirements, and equipment used for working with electric and hybrid vehicles. It will include an overview of high-voltage system layouts, common fault types, and safe diagnostic practices.

### Clutch Systems

- An informative session on modern clutch systems exploring the advantages of Self Adjusting Clutches, Dual Mass Flywheels, and Dual Clutch systems, including tooling now available for servicing and maintenance.

### Modern Lubricant

- A technical overview regarding the Fundamentals of Lubricants, Approvals & Specs, why these are important in modern vehicles.

February 13 – 15, 2026

# BATHURST 12 HOUR SPECIALIST TRAINING EVENT 2026

Bathurst, NSW
