

XRS™ CONNECT
SMART / ADAPTABLE / RUGGED

THE EVOLUTION OF ADVENTURE

XRS™ CONNECT IS AN AUSTRALIAN MADE RADIO PLATFORM DESIGNED TO BE SMART, ADAPTABLE AND RUGGED.

Building on the strong heritage of our first generation of XRS™ Connect radios, the all-new XRS™ range once again raises the benchmark for UHF CB Radios, with numerous advancements in technology ensuring GME remains at the cutting edge of two-way radio communication.

The next generation of XRS™ radios boast a suite of innovative new features including a powerful 3 Watt speaker, IP67-rated microphone, high-contrast Colour TFT LCD screen, built-in GPS receiver, Bluetooth Audio connectivity, Noise Reduction technology, and multiple user-customisable buttons.

GME's relentless focus on research and development, combined with extensive consumer feedback and in-field testing, has resulted in a range of products that set a new standard for Two-Way Radios globally.

XRS™ CONNECT
SMART ADAPTABLE RUGGED

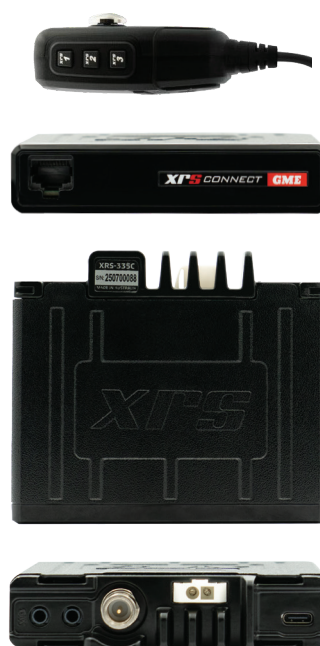

XRS™ CONNECT SUPER COMPACT UHF CB RADIO
