

THE POWER OF
REDARC

REDLAB ICON SLIM

SMALL ON SPACE, BIG ON POWER.

SMALL ON SPACE, BIG ON POWER.

REDLAB Icon Slim Batteries are designed to fit where others can't, making them ideal for 4WDs, utes, canopies, fleets and tradie setups where space matters.

Thanks to its light weight and slim profile, REDLAB Icon Slim lithium batteries fit in tight spaces, like behind seats, under floors or inside canopies. Even with their slim size, they deliver serious REDARC power for fridges, lights, tools and other gear, so you don't have to choose between power and storage space.

Whether you're heading off-grid, setting up for work, or building a compact power system, REDLAB Icon Slim gives you the power you need, without the bulk.

FITS WHERE OTHERS DON'T

Don't give up that valuable storage space! At just 62mm for 100Ah and 83mm for 200Ah, REDLAB Icon Slim batteries are purpose-built for tight spaces, whether that's behind the seat, in the canopy or under the floor.

KNOW YOUR CHARGE

Check your battery level at a glance with the built-in LED fuel gauge, or over Bluetooth through RedVision. Just download the app to start monitoring State of Charge, current, voltage, and temperature, all from the palm of your hand.

HIGH OUTPUT PERFORMANCE

Designed to work seamlessly with the wider REDARC range, including RS3 Inverters, it lets you run demanding appliances and accessories with confidence, from everyday essentials to higher-draw equipment.

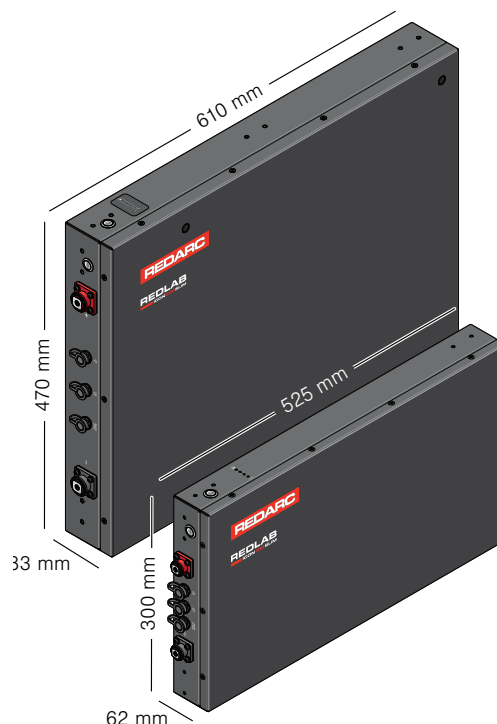

QUICK AND EASY INSTALLATION

Install in a variety of orientations with the included mounting brackets. With a slim form factor, R-Bus connectivity and Bluetooth functionality, adding lithium power to your build has never been easier.

BACKED FOR THE LONG HAUL

With a 6,000-cycle rating, these batteries are built to go the distance. Covered by a 5-year warranty for both trade and recreational use, and backed by Australiabased, industry-leading support, they give you confidence wherever the job or journey takes you.
